Overview

- The Fund returned 1.75% in April 2018, bringing the one year return to 13.46%. Over the FY to April the Fund has returned \$561 million in excess of the passive Reference Portfolio. As at 30 April 2018 the Fund was worth \$38.53 billion.

	As at 30 April 2018 (unaudited)
Fund size	\$38.53 billion
Value of NZ investments	\$5.5 billion or 14.4% of investments*
Return since inception (30 September 2003)	10.37% p.a.
Last 10 years	10.03% p.a.
Last 5 years	13.84% p.a.
Last 3 years	10.94% p.a.
Last 12 months	13.46%
April 2018	1.75%

Because of its weighting to growth assets, the Fund can experience large short-term movements. As a long-term investor we have a greater-than-average ability to withstand this volatility. Shifts in value from month to month must be seen in the context of the Fund's long-term purpose and performance.

Fund returns are unaudited and calculated before NZ tax and after costs. We consider tax paid as a return to the Crown.

* The value given for NZ investments excludes cash and foreign exchange hedging instruments.

Performance summary

- The Fund measures its performance in two ways:
 - relative to the NZ 90 day Treasury Bill return; and
 - relative to a passive [Reference Portfolio](#) benchmark.

Long-term performance expectation*	0.36%	4.43%	4.82%	5.05%	5.45%	6.59%

*Given the investment risk of the Fund, over the long-term (rolling 20 year periods) we expect to exceed the New Zealand Treasury Bill return by at least 2.7% p.a. (prior to 1 July 2015, 2.5% p.a.)
