Overview

- The Fund returned 0.84% in May 2018, bringing the one year return to 13.20%. Over the FY to May the Fund has returned \$476 million in excess of the passive Reference Portfolio. As at 31 May 2018 the Fund was worth \$38.90 billion.

	As at 31 May 2018 (unaudited)
Fund size	\$38.90 billion
Value of NZ investments	\$5.5 billion or 14.5% of investments*
Return since inception (30 September 2003)	10.37% p.a.
Last 10 years	9.94% p.a.
Last 5 years	13.28% p.a.
Last 3 years	10.65% p.a.
Last 12 months	13.20%
May 2018	0.84%

Because of its weighting to growth assets, the Fund can experience large short-term movements. As a long-term investor we have a greater-than-average ability to withstand this volatility. Shifts in value from month to month must be seen in the context of the Fund's long-term purpose and performance.

Fund returns are unaudited and calculated before NZ tax and after costs. We consider tax paid as a return to the Crown.

* The value given for NZ investments excludes cash and foreign exchange hedging instruments.

Performance summary

- The Fund measures its performance in two ways:
 - relative to the NZ 90 day Treasury Bill return; and
 - relative to a passive [Reference Portfolio](#) benchmark.

Long-term performance expectation*	0.36%	4.43%	4.77%	5.04%	5.40%	6.57%
