- The Fund returned 1.17% in June 2014. As at 30 June 2014 the Fund was worth \$26.44 billion.

	As at 30 June 2014
Fund size	\$26.44 billion
Value of NZ investments	\$3.7 billion or 16.0% of investments*
Return since inception (30 September 2003)	9.78% p.a.
Last 5 years	17.01% p.a.
Last 3 years	14.97% p.a.
Last 12 months	19.36%
June 2014	1.17%

Because of its weighting to growth assets, the Fund can experience large short-term movements. As a long-term investor we have a greater-than-average ability to withstand this volatility. Shifts in value from month to month must be seen in the context of the Fund's long-term purpose and performance.

Fund returns are unaudited and calculated before NZ tax and after costs. We consider tax paid as a return to the Crown.

\* The value given for NZ investments excludes cash and foreign exchange hedging instruments.

# Performance summary

- The Fund measures its performance in two ways:
  - relative to the NZ 90 day Treasury Bill return; and
  - relative to a passive [Reference Portfolio](#) benchmark.

Given the investment risk of the Fund, over the long-term (rolling 20 year periods) we expect to exceed the New Zealand Treasury Bill return by at least 2.5% p.a.
